Homework is not always written work - it may be reading, preparation, learning or consolidation of work done in class. Therefore, even if no special task is given by a teacher, the time allocated can usefully be spent on a subject, and should be.

Please note that some subjects lend themselves more readily to the structure of the homework timetable. At times, in others, assignments may be set lasting two to three weeks but overall requiring a similar input from pupils.

Copies of the homework timetable should be copied into the Planner. Please do not hesitate to contact the school if you have any queries about homework.
